These materials do not constitute an offer of securities for sale or a solicitation of an offer to purchase the securities described in such materials in the United States. In particular, any securities referred to in these materials have not been and will not be registered under the U.S. Securities Act of 1933 (the “Securities Act”), or under the securities laws of any state or other jurisdiction of the United States and may not be offered, sold or delivered, directly or indirectly, in or into the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and in compliance with any applicable securities laws of any state or other jurisdiction of the United States. There will be no public offering of securities in the United States.

Forward-Looking Statements

Statements in this presentation relating to any future status or circumstances, including statements regarding future performance, growth and other trend projections are forward-looking statements. These statements may generally, but not always, be identified by the use of words such as “anticipate”, “believe”, “expect”, “intend”, “plan”, “seek”, “will”, “would” or similar expressions. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that could occur in the future. There can be no assurance that actual results will not differ materially from those expressed or implied by these forward-looking statements due to several factors, many of which are outside the company’s control. Any forward-looking statements in this presentation speak only as of the date on which the statements are made and the company has no obligation (and undertakes no obligation) to update or revise any of them, whether as a result of new information, future events or otherwise.

Creating value through
the **energy transition**
